RESOLUTION OF THE STUDENT SENATORS COUNCIL:

In recognition of the abhorrent discriminatory practices of the government of South Africa, and in recognition of the need for New York University to affirmatively demonstrate its commitment to the principles of freedom and equality of opportunity in all aspects of our social, economic, cultural, political and academic lives, and in recognition of the moral inadequacies of the Sullivan Principles:

RESOLVED THAT:

The Student Senators Council, on behalf of the students of New York University, calls upon the President to express to the Board of Trustees our deep concern regarding this University's continued investments in organizations doing business with the country of South Africa and our belief that such investments are antithetical to the principles of freedom and equality of opportunity upon which this University is founded;

FURTHER RESOLVED THAT:

The Student Senators Council, on behalf of the students of New York University, calls upon the Board of Trustees to cause the divestment of this University's investments in organizations doing business with the country of South Africa within a time period which will protect the financial integrity of the University and to affirmatively state its intention to move the University toward this goal.

Adopted unanimously by the Student Senators Council at its April 11, 1985 meeting.

STUDENTS AGAINST APARTHEID

* U.S. Corporations prop up the racist regimes, comply with apartheid practices, and enrich themselves from the natural and human resources of the area.

* General Motors maintains separate facilities for its Black and white employees; Chrysler pays wages (81dollars per month) which are below the official poverty line.

* In all, 360 U.S. Corporations have 1.5 billion dollars invested in South Africa and enjoy their highest returns of anywhere in the world. Blacks in South Africa continue to live in hunger and poverty.
